

The curriculum for this stage of students' education has been designed to develop on students' analysis and evaluation skills, whilst building on their recall skills. The content of the specification has been followed to ensure that students have the required knowledge base whilst developing their ability to apply the law to real life situations, using judicial precedent and case law to support their legal arguments. In Y12 students have studied the legal system in the UK and aspects of civil law. They now move on to look at criminal law, thus developing a wholistic and as varied an understanding of the law as possible before specialising in Family Law in the final topic. This structure follows that of a degree course.
