

Coronavirus (COVID-19): Risk Assessment Action Plan (October 2020)

Bishop Milner Catholic College

Assessment conducted by: Andrew W Rainbow	Job title: St John Bosco Catholic Academy Estates Manager	Covered by this assessment: Bishop Milner Catholic College, Site, Staff, Students & Visitors.
Date of assessment 05 January 2021	Date of next review: Jan 2022	Revised 23 Feb. 21

The sole purpose of this risk assessment is to support schools in preparing for the possibility of providing some face-to-face contact with pupils in year groups **(ALL) while reducing the risk of coronavirus transmission**. The risk assessment has been written in collaboration with a number of local authorities.

- For the purpose of this risk assessment, the term ‘coronavirus’ to refer to coronavirus disease 2019 (COVID-19). Schools must ensure that this risk assessment reflects the local setting and context of the school. Staff must be consulted with regard to this risk assessment (this must take into consideration all types of workers including agency workers, casual staff and contractors and any other adult on site as well as your permanent staff).
- This risk assessment is not exhaustive and is issued to schools as a template to assist in the production of a comprehensive document that covers the particular circumstance of the setting – **as such, the risks and risk controls should be deleted/amended/added-to to reflect the school.**
- This should be viewed alongside relevant advice and guidance from the Department of Education and reflect any additional subsequent guidance issued to schools.
- For further reference, <https://www.gov.uk/government/latest?departments%5B%5D=department-for-education>, including the documents below, issued on the 11 May 2020:
 - [Coronavirus \(COVID-19\): guidance for schools and other educational settings](#)
 - [Details on phased wider opening of schools, colleges and nurseries](#)
 - [Coronavirus \(COVID-19\): implementing protective measures in education and childcare settings](#)
 - [Actions for educational and childcare settings to prepare for wider opening from 1 June 2020](#)
 - [What parents and carers need to know about schools and other education settings during the coronavirus outbreak](#)
 - [Opening schools for more children and young people: initial planning framework for schools in England \(updated 12 May \)](#)

Key:	
Level of risk prior to control	Identifies the risk before any steps to reduce the risk have been taken
Risk Description:	Outlines the area of concern. This list is not exhaustive, and schools should add/amend/delete where appropriate e.g. risks for pupils with complex needs.
Risk Controls:	The measures that will be taken to minimise the risk. These are generic and should be adapted for the school context. Add <additional information>
Impact:	Could be L/M/H or numeric, depending on what is used in the school setting.
Likelihood:	Could be L/M/H or numeric, depending on what is used in the school setting. NB IF IMPACT AND LIKELIHOOD ARE BOTH HIGH, THEN THE ACTIVITY SHOULD BE STOPPED UNTIL ADDITIONAL CONTROL MEASURES ARE PUT IN PLACE.
Responsible person:	The identified staff member(s) responsible for implementing the risk controls.
Completion Date:	The date by which required plans for controls will be in place. To support planning, identify which controls need to be in place before pupils return to the setting.
Line Manager Check:	Sign off to ensure that the risk has been minimised as far as possible.

The sole purpose of this risk assessment is to support schools in preparing for all pupils, in all year groups, to return to school full-time from the beginning of the autumn term **while reducing the risk of coronavirus transmission**. The risk assessment has been written in collaboration with a number of local authorities

Manage positive cases amongst the school community	School Head Teacher	<p>Schools must take swift action when they become aware that someone who has attended has tested positive for coronavirus (COVID-19). Schools should contact the local health protection team. This team will also contact schools directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the school – as identified by NHS Test and Trace.</p> <p>The health protection team will carry out a rapid risk assessment to confirm who has been in close contact with the person during the period that they were infectious, and ensure they are asked to self-isolate.</p> <p>The health protection team will work with schools in this situation to guide them through the actions they need to take. Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 10 days since they were last in close contact with that person when they were infectious. Close contact means:</p> <p>direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin)</p> <p>proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual travelling in a small vehicle, like a car, with an infected person</p> <p>The health protection team will provide definitive advice on who must be sent home. To support them in doing so, we recommend schools keep a record of pupils and staff in each group, and any close contact that takes places between pupils and staff in different groups (see section 5 of system of control for more on grouping pupils). This should be a proportionate recording</p>	<u>Low</u>	<u>Low</u>	<u>All staff</u> <u>R May, H Parkes and Directors</u>	<u>Ongoing</u>	<u>R May, H Parkes and Directors</u>

		<p>process. Schools do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.</p> <p>Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 10-day isolation period they should follow ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’. They should get a test, and:</p> <p>If the test delivers a negative result, they must remain in isolation for the remainder of the 10-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days.</p> <p>If the test result is positive, they should inform their setting immediately, and must isolate for at least 10 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 10-day isolation period). Their household should self-isolate for at least 10 days from when the symptomatic person first had symptoms, following ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’</p> <p>Schools should not request evidence of negative test results or other medical evidence before admitting pupils or welcoming them back after a period of self-isolation.</p> <p>Further guidance is available on testing and tracing for coronavirus (COVID-19).</p>					
New & Expectant Mothers	Medium	<ul style="list-style-type: none"> Mum to be is considered “clinically vulnerable” or in some cases “clinically extremely vulnerable.” 	<u>Low</u>	<u>Low</u>	<u>R May and SLT’s</u>	<u>Ongoing</u>	<u>R May, H Parkes and Directors</u>

Risk Description/Area of Concern	Level of risk prior to control <>	Risk Controls	Level of risk is now <>	Likelihood <>	Responsible person	Planned completion Date	Line Manager Check
		<p>We know from growing evidence that many children identified at the start of the pandemic as clinically extremely vulnerable (CEV) are not at increased risk of serious outcomes from coronavirus (COVID-19) and children are gradually being removed from the shielding patient list (SPL) as appropriate, following review with a 33 clinician. The advice for pupils who have been confirmed as clinically extremely vulnerable is to shield and stay at home as much as possible until further notice. They are advised not to attend school while shielding advice applies nationally. All 16 to 18 year olds with underlying health conditions which put them at higher risk of serious disease and mortality will be offered a vaccine in priority group 6 of the vaccination programme. At present, these children should continue to shield, and self-isolate if they have symptoms or are identified as a close contact of a positive case, even if they have been vaccinated.</p> <p>Primary Schools All Staff and visitors are required to wear a face covering "MASK" whilst walking thorough the school, all common areas (corridors etc) of the school. Face shields are not considered a face covering.</p>
